Withdrawal of a bid during this interval may result in the Bidder's forfeiture of its Bid Security/EMD besides blacklisting them (bidder).

13. OPENING AND EVALUATION OF BIDS

13.1 Opening of Bids by the Purchaser (NII)

The offline bid will be opened by a committee duly constituted for this purpose. Offline bids (complete in all respect) received along with UTR info of EMD fund transfer (if any) will be opened as mentioned at "Schedule" in presence of Tenderer's representative if available. Only one representative will be allowed to participate in the tender opening. Bid received without EMD (if present) will be rejected. The technical bid will be opened offline first and it will be examined by a technical committee (as per specification and requirement). The financial offer/bid will be opened only for the offer/bid which are technically qualified as per the specification, and will be opened in the presence of the vendor's representatives subsequently for further evaluation. The tenderer if interested may participate on the tender opening Date and Time. The tenderer should produce authorization letter from their company to participate in the tender opening. The NII will not pay any TA/DA for presentation/ demonstration.

13.2 Preliminary examination and evaluation of Technical Bids

The Technical Bids will be opened by NII (i.e. by an authorised 'Committee' of NII) at the first instance and evaluated by it.

- (i) The Purchaser (NII) will examine the bids to determine whether they are complete, whether required sureties have been furnished, whether the documents have been properly signed, and whether the bids are generally in order. The Purchaser (NII) may waive any minor infirmity, non-conformity, or irregularity in a bid, which does not constitute a material deviation, provided such a waiver, does not prejudice or affect the relative ranking of any Bidder.
- (ii) Prior to the detailed evaluation, the Purchaser (NII) will determine the substantial responsiveness of each bid to the Bid Document. For purposes of these Clauses, a substantially responsive bid is one, which conforms to all the terms and conditions of the Bid Document without material deviations.
- (iii) After downloading, the language of standard clauses etc. mentioned in this 'Bid Document' should not be tampered with/ changed/modified in any manner whatsoever. If any such modification etc. comes to our knowledge at any stage, the bid shall be rejected immediately and EMD shall also be forfeited.
- (iv) **Conversion to Single Currency as indicated below:**
 - To facilitate evaluation and comparison of price bids, the Purchaser (NII) will convert all bid prices expressed in the amounts in various currencies in which the bid prices are payable to Indian Rupees at the selling exchange rate established by RBI in India and available in the 'Newspapers/Banks website' on the date of opening of Price/Financial Bid.

13.3 Evaluation & Comparison of Financial/Price Bids

- (i) At the second stage, Financial/Price Bids of only the technically acceptable offers (Technically qualified Bids) shall be opened for further evaluations and ranking by a authorised 'Committee' of NII. The Purchase order shall be awarded to the lowest evaluated Bidder, whose bid has been found to be responsive and who is eligible and qualified to perform the contract satisfactorily as per terms & conditions incorporated in NIT /Bidding document.
- (ii) For the bids surviving the 'Technical Evaluation', which have been found to be responsive, the evaluation & comparison shall be made as under:
 - **Indigenous Offers:** The final FOR cost of purchase after all discounts, freight, forwarding, insurance (ware house to ware house), custom clearing charges, GST etc. shall be the basis of evaluation.
 - **Imported Offers:** The CIP price shall be the basis of evaluation
 - **Conditional tenders/discounts etc. shall not be accepted. Rates quoted without attached conditions** (viz. Discounts having linkages to quantity, payment terms etc.) will only be considered for evaluation purpose. Thus conditional discounted rates linked to quantities and prompt/advance payment etc, will be ignored for determining *inter-se* position. The Purchaser (NII), however, reserves the right to use the discounted rate/rates considered workable and appropriate for counter offer to the successful tenderers.

14. Contacting the Purchaser (NII)

Any effort by a Bidder to influence the Purchaser (NII) in its decisions on Bid Evaluation, bid comparison or Contract Award may result in rejection of the Bidder's bid.

15. Purchaser's Right to vary quantities at time of Award

The Purchaser (NII) reserves the right at the time of Contract award to increase or decrease the quantity of goods and services originally specified in the Schedule of Requirements without any change in unit price or other terms and conditions.

16. Purchaser's Right to accept any Bid and to Reject any or all Bid

The Purchaser (NII) reserves the right to accept or reject any bid, and to annul the bidding process and reject all bids at any time prior to Award of Contract, without thereby incurring any liability to the affected Bidder or bidders or any obligation to inform the affected Bidder or bidders of the grounds for the Purchaser's action.

17. Notification of Award

- Prior to the expiration of the period of bid validity, the Purchaser (NII) will notify the successful bidder in writing by e-mail that the bid has been accepted by way of a Purchase Order.
- Upon the successful Bidder's furnishing of performance security, the Purchaser (NII) will promptly notify each unsuccessful Bidder and will discharge its Bid Security/EMD interest free.

If after delivery, acceptance and installation and within the guarantee and warranty period, the operation or use of the goods proves to be unsatisfactory, the Purchaser shall have the right to continue to operate or use such goods until rectifications of defects, errors or omissions by repair or by partial or complete free replacement is made without interfering with the Purchaser's operation.

16. Transfer and Subletting: The supplier shall not sublet, transfer, assign or otherwise part with the acceptance to the tender or any part thereof, either directly or indirectly, without the prior written permission of the Purchaser.

17. Supplier Integrity

The supplier is responsible for and obliged to conduct all contracted activities in accordance with the contract using state of the art methods and economic principles and exercising all means available to achieve the performance specified in the contract.

18. Installation & Demonstration

- The supplier is required to do the installation and demonstration of the equipment within two weeks of the arrival of materials at the NII, site of installation; otherwise the penalty clause will be the same as per the supply of materials.
- In case of any damage to equipment and supplies during the carriage of supplies from the origin of equipment to the installation site, the supplier has to replace it with new equipment/supplies immediately at his own risk. Supplier will settle his claim with the insurance company as per his convenience. NII will not be liable to any type of losses in any form.
 - The upgradation of existing equipment should be installed & commissioned satisfactorily in such a way that final payment can be done before 25 March 2024

19. Inspection and Tests : Inspection and tests prior to shipment of Goods and at final acceptance are as follows :

- (i) After the goods are manufactured and assembled, inspection and testing of the goods shall be carried out at the supplier's plant by the supplier, prior to shipment to check whether the goods are in conformity with the technical specifications attached to the purchase order. Manufacturer's test certificate with data sheet shall be issued to this effect and submitted along with the delivery documents.
- (ii) The acceptance test will be conducted by the Purchaser (NII), their consultant or other such person nominated by the Purchaser (NII) at its option after the equipment is installed at purchaser's site in the presence of supplier's representatives. The acceptance will involve trouble free operation and ascertaining conformity with the ordered specifications and quality. There shall not be any additional charges for carrying out acceptance test. No malfunction, partial or complete failure of any part of the equipment is expected to occur. The Supplier shall maintain necessary log in respect of the result of the test to establish to the entire satisfaction of the Purchaser (NII), the successful completion of the test specified.
- (iii) In the event of the ordered item failing to pass the acceptance test, a period not exceeding one weeks will be given to rectify the defects and clear the acceptance test, failing which the Purchaser (NII) reserve the right to get the equipment replaced by the Supplier at no extra cost to the Purchaser (NII).
- (iv) Successful conduct and conclusion of the acceptance test for the installed goods and equipment's shall also be the responsibility and at the cost of the Supplier.

20. Manuals and Drawings:

- i. Before the goods and equipment are taken over by the Purchaser, the Supplier shall supply operation and maintenance manuals. These shall be in such details as will enable the Purchaser to operate, maintain, adjust and repair all parts of the works as stated in the specifications.
- ii. The Manuals shall be in the ruling language (English) in such form and numbers as stated in the contract.
- iii. Unless and otherwise agreed, the goods equipment shall not be considered to be completed for the purposes of taking over until such manuals and drawing have been supplied to the Purchaser.

21. Governing Language

The contract shall be written in English language. English language version of the Contract shall govern its interpretation. All correspondence and other documents pertaining to the Contract, which are exchanged by the parties, shall be written in the same language.

22. Taxes

Suppliers shall be entirely responsible for all taxes, duties, license fees, etc, incurred until delivery of the contracted Goods to the Purchaser. However, GST in respect of the transaction between the Purchaser and the Supplier shall be payable extra, if so stipulated in the order.

23. Duties

NII is exempted from paying custom duty under notification No.51/96 (partially or fully) and necessary "Custom Duty Exemption Certificate" can be issued after providing following information and Custom Duty Exemption Certificate will be issued to the shipment in the name of the Institute, no certificate will be issued to third party:

- a) Shipping details i.e. Master Airway Bill No. and House Airway No. (If exists)
- b) Invoice and packing list
- c) Country of origin
- d) Forwarder details i.e. Name, Contact No., etc.

24. Payment:

- I. **For Indigenous supplies**, 90% payment shall be made by the Purchaser after successful and inspection, commissioning and acceptance of the equipment at NII in good condition and the 10% balance will be paid after the satisfactory installation report and inspection report subject to unconditional performance bank guarantee as specified in Clause 6 of (GTCC) tender terms and conditions.
- II. **For imported items** Payment will be made through irrevocable Letter of Credit (LC)/via transfer. Letter of Credit (LC) will be established in favour of foreign Supplier after the submission of 10% performance Security. The letter of credit (LC) will be established on the exchange rates as applicable on the date of establishment. For Imports, LC will be opened for 100% CIP value. 90% of the LC amount shall be released on presentation of complete and clear shipping documents and 10% of the LC amount shall be released after the installation, Inspection and demonstration of the equipment at the NII site.
- III. Indian Agency commission (IAC), if any shall be paid after satisfactory installation & commissioning of the goods at the destination at the exchange rate prevailing on the date of negotiation of LC documents.
- IV. All the bank charges within India will be borne by the Institute and outside India will be borne by the Supplier.

25. **User list:** Brochure detailing technical specifications and performance, list of industrial and Government educational/research organization where the items enquired has been supplied by the Bidder or their OEM/Manufacture has undertaken such work during last three years must be provided. **(Ref. Annexure-D)**

26. **Application Specialist:** The Tenderer should mention in the Techno-Commercial bid the availability and names of Application Specialist and Service Engineers in the nearest regional office. (Ref. Annexure-D)

27. **Site Preparation:** The supplier shall inform to the Institute about the site preparation, if any, needed for the installation of equipment, immediately after the receipt of the purchase order. The supplier must provide complete details regarding space and all the other infrastructural requirements needed for the equipment, which the Institute should arrange before the arrival of the equipment to ensure its timely installation and smooth operation thereafter.

The supplier may visit the Institute and see the site where the equipment is to be installed and may offer his advice and render assistance to the Institute in the preparation of the site and other pre- installation requirements.

28. Spare Parts

The Supplier may be required to provide any or all of the following materials, notifications, and information pertaining to spare parts manufactured or distributed by the Supplier. Such spare parts as the Purchaser may elect to purchase from the Supplier, providing that this selection shall not relieve the Supplier of any warranty obligations under the Contract; and In the event of termination of production of the spare parts; Advance notification to the Purchaser of the pending termination, in sufficient time to permit the Purchaser to procure needed requirements; and following such termination, furnishing at no cost to the Purchaser, the blueprints, drawings and specifications of the spare parts, if requested. The supplier should provide all support in case of service as well as spares till ten years from the date of Installation of the equipment.

Supplier shall carry sufficient inventories to assure ex-stock supply of consumable spares. Other spare parts and components shall be supplied as promptly as possible but in any case within two months of placement of order.

29. **Defective Equipment:** If any of the equipment supplied by the Supplier is found to be damaged substandard, refurbished, un-merchantable or not in accordance with the description/specification or otherwise faulty, the Indenter/committee will have the right to reject the equipment or its part. The prices of such equipment shall be refunded by the Supplier with 18% interest if such payments for such equipment have already been made. All damaged or unapproved goods shall be returned at suppliers cost and risk and the incidental expenses incurred thereon shall be recovered from the supplier. Defective part in equipment, if found before installation and/or during warranty period, shall be replaced within 15 days on receipt of the intimation from this office at the cost and risk of supplier including all other charges. In case supplier fails to replace above item as per above terms & conditions, NII may consider "Banning" the supplier.

30. Termination for Default

(i) The Purchaser may, without prejudice to any other remedy for breach of contract, by written notice of default sent to the Supplier, terminate the Contract in whole or part:

- If the Supplier fails to deliver any or all of the Goods within the period(s) specified in the order, or within any extension thereof granted by the Purchaser; or
- If the Supplier fails to perform any other obligation(s) under the Contract.
- If the Supplier, in the judgment of the Purchaser has engaged in corrupt or fraudulent practices in competing for or in executing the Contract.

(ii) For the purpose of this Clause:

- **“Corrupt practice”** means the offering, giving, receiving or soliciting of anything of value to influence the action of a public official in the procurement process or in contract execution.

- **“Fraudulent practice”** means a misrepresentation of facts in order to influence a procurement process or the execution of a contract to the detriment of the Borrower, and includes collusive practice among Tenderer (prior to or after bid submission) designed to establish bid prices at artificial non- competitive levels and to deprive the Borrower of the benefits of free and open competition;”

(iii) In the event the Purchaser terminates the Contract in whole or in part, the Purchaser may procure, upon such terms and in such manner, as it deems appropriate, Goods or Services similar to those undelivered, and the Supplier shall be liable to the Purchaser for any excess costs for such similar Goods or Services. However, the Supplier shall continue the performance of the Contract to the extent not terminated.

31. Training of Personnel: The supplier shall be required to undertake to provide the technical training to the personnel involved in the use of the equipment at the Institute premises, immediately after completing the installation of the equipment.

32. Compliancy certificate: This certificate must be provided indicating conformity to the technical specifications. (Ref. Annexure-G-1)

33. Evaluation of Offer:

- L1 will be decided on the basis of the total as quoted in the price bid.
- Offer which deviates from the vital conditions (as illustrated below) of the tender shall be rejected:
 - a. Non submission of complete offers.
 - b. Receipt of offers after due date and time and or by email / fax (unless specified other- wise).
 - c. Receipt of offers in open conditions.
- In case any TENDERER is silent on any clauses mentioned in this tender document, the Institute shall construe that the TENDERER had accepted the clauses as per the invitation to tender.
- No revision in the terms and conditions quoted in the offer will be entertained after the last date and time fixed for receipt of tenders.

34. Force Majeure

- (i) The Supplier shall not be liable for forfeiture of its performance security, liquidated damages or termination for default, if and to the extent that, it's delay in performance or other failure to perform its obligations under the Contract is the result of an event of Force Majeure (with documentary evidence).
- (ii) For purposes of this Clause, "Force Majeure" means an event beyond the control of the Supplier and not involving the Supplier's fault or negligence and not foreseeable. Such events may include, but are not limited to, acts of the Purchaser (NII) either in its sovereign or contractual capacity, wars or revolutions, fires, floods, epidemics, quarantine restrictions and freight embargoes.

35. Resolution of Disputes

- (i) The Purchaser (NII) and the supplier shall make every effort to resolve amicably by direct informal negotiation any disagreement or dispute arising between them under or in connection with the Contract.
- (ii) If, after thirty (30) days from the commencement of such informal negotiations, the Purchaser (NII) and the Supplier have been unable to resolve amicably a Contract dispute, either party may require that the dispute be referred for resolution to the formal mechanisms. These mechanisms may include, but are not limited to, conciliation mediated by a third party, adjudication in an agreed national or international forum, and national or international arbitration.
- (iii) In case of Dispute or difference arising between the Purchaser (NII) and a domestic supplier relating to any matter arising out of or connected with this agreement, such disputes or difference shall be settled in accordance with the Indian Arbitration & Conciliation Act, 1996, the rules there under and any statutory modifications or re-enactments thereof shall apply to the arbitration proceedings. The dispute shall be referred to the Director, NII and if he is unable or unwilling to act, to the sole arbitration of some other person appointed by him

(Director, NII) willing to act as such Arbitrator. The award of the arbitrator so appointed shall be final, conclusive and binding on all parties to this order.

- (iv) In the case of a dispute between the purchaser (NII) and a Foreign Supplier, the dispute shall be settled by arbitration in accordance with above provision. But if this is not acceptable to the supplier then the dispute shall be settled in accordance with provisions of UNCITRAL (United Nations Commission on International Trade Law) Arbitration Rules.
- (v) The venue of the arbitration shall be the place from where the order is issued.

36. Applicable Law: The place of jurisdiction would be Delhi (INDIA).

37. Notices: For the purpose of all notices, the following shall be the address of the Purchaser (NII) and Supplier.

38. The bidders are advised to visit the Institute at their own cost and risk before submitting the quote, in order to ensure that the existing Magnet is compatible with the ‘four channel based 700 MHz NMR spectrometer console in solution state NMR,’ being supplied by them.

Quotations are invited for the upgradation of four-channel based 700 MHz NMR Spectrometer. The vendor has to provide console and other components if required, in solution state NMR for the existing Bruker magnet, compatible for Bruker Triple channel Cryoprobe, Room temperature triple channel probe, and multinuclear two channel observe probe meeting the specifications given below.

1. The supplied state-of-the-art console should be compatible with the currently existing cryo-compatible Bruker Avance III 700 MHz (Mega Hertz) instrument. The console when connected should enable a fully functional NMR system, including cryoprobe-enabled experiments for high-end multi-dimensional NMR experiments for proteins and other biological macromolecules, as well as protein dynamics measurements.
2. NMR console for 700 MHz NMR spectrometer with ethernet router providing required number of TCP/IP (transmission control protocol/internet protocol) based ethernet ports for internal and external spectrometer devices like sample changers, cryoprobe platforms, magnet control, monitoring equipment, solution state NMR accessories, etc.
3. The fitness and lifetime of the existing 700 MHz magnet and its compatibility to the new console (to be supplied) shall be ascertained by the vendors on-site, prior to submission of bids.
4. In case where the vendor's console is not the same as the manufacturer of the magnet, the onus on provision of frequency conversion of the magnet, compatible consoles, along with specific cryoprobes, for the fully functional system, rests solely with the vendor.
5. The system should be equipped with a power distribution unit to enable software-controlled console power-up and power-down for the console.
6. The system should have 80 MHz system clock, 12.5 ns timing resolution with synchronicity, up to trigger inputs, upto 4 real time output controls on all channels within 12.5 ns.
7. The system should have gradient control on gradient amplifiers with at least 50 G/cm gradient strength with a gradient recovery of < 100 micro sec.
8. The system should support ultra-stable, ultra-low noise B0 current source, 2G digital NMR lock for 2H and/or 19F nuclei, shim current sources, smartVT control for independent VT (Variable Temperature) channels, smart coolers, low temperature accessories like LN2 (Liquid Nitrogen) exchanger, high temperature equipment, high resolution gradient amplifiers and RT (room temperature) shim systems and ST (sample transport) upperparts.
9. The system should support upto 8 RF (radio frequency) preamplifiers, fully multi-receive, no extra wiring/components, touch screen-based machine interface, accurate tuning and matching with factory calibrated preamplifiers, fully integrated automatic tuning and matching with ATM (automatic tuning matching) probes and probe identification interface.
10. The system should come with a nitrogen refill kit with PFA (perfluoroalkoxy alkane) tube.

11. The system should come with VT gas membrane air dryer for coolers compatible with high resolution NMR liquids spectrometer with atleast a maximum flow of 60 L/min and a dew point of minus 80 °C.
12. The system should have a N₂ (nitrogen) VT gas separator for production of >95% N₂ gas from compressed air.
13. The system should contain a shim system for optimum homogeneity at low current and low heat dissipation with at least 30 matrix shim gradients, B₀ coil, temperature sensor and identification coding.
14. The system should come with magnet system sample transfer for NMR sample insertion and ejection with built-in sample up-sensor and spinning/sample-down sensor and prepared for shim system cooling.
15. The system should contain a shim current board with high-precision and ultra-stable current board.
16. The system should contain a fast single channel gradient amplifier board suitable for pulsed field gradient shimming and single axis gradient enhanced spectroscopy with 10A min.
17. The system should contain a VT control unit that has an integrated gas flow system to control NMR sample inject/eject and VT temperatures within the probe.
18. It should be capable of 2H frequency RF generation, fast and accurate gradient shimming on 2H with easy and reliable locking with complex deuterated solvents.
19. The system should be a have 4 RF channel NMR RF with built-in pulse program engine (like shapes, sequencer, etc.)
20. The system should have a high RF power amplifier for X-nuclei, 1H (and 19F), and 2H observe and decoupling with a 2H lock switch to enable fast switching between 2H decoupling and 2H lock operations.
21. The system should have a 1H channel RF power amplifier with minimum 100W or better, two 500W or better for X-nuclei and 150W for 2H or better.
22. The system should have 13C and 15N preamplifier having two linear, low noise preamplifiers with very low (~1.4dB) system noise, maximum 500W peak power RF capability.
23. All the preamplifiers should have active transmit/receive switch and factory calibrated for accurate tuning and matching.
24. The system should come with a VT adaptor (standard probes)and VT adaptor (cryoprobe) for thermocouple type T temperature sensors.
25. The system should have a VT gas coolers/chillers for NMR probes to attain minus 150 °C to plus 100 °C (-150°C to +100 °C) with a resolution of 0.1 °C.
26. The system should come with a helium cryoplatfrom ethernet upgrade for He-cryoprobe cooling units.

27. The system should come with a workstation for acquisition purpose with free upgrade for the acquisition software for 10 years. The system should also come with 24" or better monitor for the workstation.
28. The system should come with a standard factory warranty of at least one year.
29. The system should support the desired sensitivity of S/N > 4000 for the currently installed cryoprobe (inverse triple resonance high-resolution cryo/cold probe) and S/N > 1200:1 for the RT probe (triple resonance inverse probe (1H, 15N, 13C nuclei). The 13C sensitivity should be > 1200:1.
30. The system should have a desired pulse widths of < 7 μ sec (no salt) for 1H and < 11 μ sec for 13C for the cryoprobes.
31. The upgraded system should include the complete pulse program library for performing all the biomolecular NMR experiments.
32. The bidder should provide one year warranty for the entire system including magnet, cryoplatfrom, console and cryoprobes,
33. The vendor must provide CMC for the entire system (magnet, cryoplatfrom, console and cryoprobes) with an annual break-up from (years 2 to 5) including liquid helium supplied charges. A comprehensive list of services, parts and consumables covered by CMC must be provided. The amount of CMC will be paid in the respective future years on annual basis.

Optional:

The vendor must include the quote for the following optional items separately in the tender bid:

1. Extended factory warranty for four years that includes any repair needed to get the system back and running.
2. Cryoplatfrom (air cooled) for high resolution NMR He cryoprobes.
3. Cryoplatfrom upgradation to outdoor air-cooled instead of water cooled He compressor.
4. A broadband-observe probe (BBO) with 2H lock for observation of nuclei in the range of 15N to 31P with 1H decoupling and 5 mm sample diameter including standard set of RF filters with a capability for variable temperature range of -150 deg to 150 deg with automatic tuning and matching capability, fast switching highly linear Z gradient.
5. A 1H optimized 5 mm triple resonance TCI cryoprobe for 1H observation with 13C and/or 15N decoupling and for 13C observation with 1H decoupling that include cooled preamplifiers for 1H, 13C, 15N and 2H.
6. Additional channel for 1D 31P for CP-TCI probe.
7. Three state-of-the-art high-end workstations for data analysis and simulations of multi-dimensional NMR experimental data along with simulations with a minimum of 64GB RAM, Intel i9 processor, 2TB hard disk and high-end graphics card.

‘TECHNICAL COMPLIANCE STATEMENT FORM

An item-by-item commentary on the Purchaser's Technical Specifications demonstrating substantial responsiveness of the goods and services to those specifications or a statement of deviations and exceptions to the provisions of the Technical Specifications.
